

To Whom it may concern,

Andrew Loehr is an incredibly talented, inquisitive and dedicated team member. We were fortunate at Brand Labs to have him on our Development team as a front end developer who reported to the Head of Projects, Lisa Westbrook. Andrew worked closely as a dedicated resource to one of our top tier clients, Intel on a highly complex Magento 2 custom ecommerce build along with other front end, full stack and backend developers, account manager, product manager and quality assurance. Andrew had a positive impact on everything and everyone he came in contact with during his time with us, bringing value to a multitude of tasks and brainstorming. Not only is he easy to work with, he's generous with ideas and enthusiastic to help his department and company grow. His communication skills were professional and positively impacted the work he provided with both clients and internally on our own company initiatives. Quick to learn, eager to evolve, and beloved by all he worked with. Any company would be fortunate to have Andrew on their team and we thoroughly recommend him. If you have any questions we'd be more than happy to answer them.

Warm Regards,  
Michelle Pittell & Danielle Lewis  
Co-presidents, Brand Labs
